Description:

Cloudreach is a unique 4-bedroom, 3-bathroom house on four levels at Sturges St. Thomas. The house is situated in the midst of a mature and productive mango orchard, on sloping land with excellent 200 degree views across the island, over Bridgetown and out to the sea.

On arrival the entrance patio has a bridged walkway over a wrap-around, open plan living room with terrace dining room, open plan kitchen and bar, black finished infinity edge swimming pool with integral hot tub and outdoor shower. A large engineered wood and limestone deck surrounds the pool.

The upper level comprises of the Master Bedroom with double vanity en-suite bathroom with large stall shower, 2 person tub and built in closets. The master suite also features an elevated loft type home office. A Romeo & Juliet balcony overlooks the pool and back garden from the master suite. The landing overlooking the living area connects the master suite with another bedroom. On the middle level there are two bedrooms with 1 double vanity bathroom with shower and tub and a music/library alcove.

There is a two car garage, laundry room, large ground level space partially developed for an apartment. The property is outfitted with burglar bars throughout and electric roll-down hurricane shutter and a solar water heater.
