The apartment consists of various rooms that could be retrofitted to make two smaller apartments.

The home is designed with comfort in mind. As you enter you are greeted with large bright open plan spaces with vaulted wooden ceilings and ceramic tiles. The lounge, dining and family kitchen flow naturally to the huge patio, the ideal space to entertain or just relax in comfort. The entertainment room is adjacent and has a service window to the kitchen for easy access to snacks and drinks for your movie nights. All of the bedrooms are opposite the lounge and slightly elevated with the main bedroom offering distant ocean views and an en-suite bathroom.

The home is also outfitted with water tanks and can facilitate a generator. There is additional storage under the house for home supplies.
