Description:

The Valley Great House, built in the 1850s, sits in the peaceful Valley of St. George, Barbados. Parts of the house date back to 1696, making it a true testament to the island's rich history. This historic plantation home radiates old-world charm and colonial elegance, and it has been carefully preserved and thoughtfully restored over the years and modernized in the 1980s and again in 2008. It now features an updated kitchen ideal for modern living while maintaining its timeless character.

Set on 2.5 acres of lush, manicured grounds, the property offers seclusion and serenity. Mature trees and tropical landscaping create a perfect retreat for relaxation or entertaining. The spacious outdoor areas are ideal for family gatherings and leisurely strolls.

The home includes 4 to 5 flexible bedrooms and 4 elegant bathrooms. A self-contained cottage provides extra privacy for guests or family. An additional bedroom off the main garage offers a secluded space for guests or staff.

Blending historic beauty with modern convenience, The Valley Great House is a unique gem in Barbados. It offers a stunning landscape, versatile living spaces and rich heritage.
