Description:

A centrally located 3 bedroom, 2 bathroom home situated in a lovely family oriented neighbourhood in Upton, St. Michael. On the main level a front garden and sheltered patio lead inside to the living and dining rooms which flow easily to an open plan kitchen with breakfast bar.

All the bedrooms have built-in cupboards with the master bedroom having an ensuite bathroom with a shower, while the other two bedrooms share an updated bathroom that also has a shower.

The lower level of the house offers tremendous opportunities to be developed further with it having several rooms, a full bathroom, home office and having previously been used as a successful Nursery School. This level also has a fully enclosed sizable garden with several fruit trees and quite conveniently a extremely large shed.

The Sir Garfield Sobers gymnasium is very close by, while just a short drive away is the heart of the south coast with its many restaurants and amenities.
